

# OVOBOX

A CONVENIENT AND  
SAFE ALTERNATIVE TO  
SHELL EGGS

# OVOBOX – PRODUCT BENEFITS

1. Eggs are a natural source of protein, vitamins and minerals. They are essential in every kitchen and an indispensable part of a balanced diet.

Eggs are a completely natural product and it was crucial for us to keep it that way. That is why we do not use preservatives or flavour enhancers during the production of OVOBOX. Yes, it is possible thanks to the use of modern and ultra-hygienic filling lines and Elopak Pure-Pak Sense cartons.

2.

3. Good by nature, safe thanks to advanced filling and packaging technology.

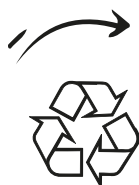

4. Unlimited possibilities of use in many applications and places. OVOBOX is perfect for both home and professional kitchens.

5. OVOBOX egg products are available in various sizes, which ensures their trouble-free storage and allows for optimal stock planning.

## PURE-PAK SENSE CARTON:

- Keeps the product fresh and of high quality for longer,
- Thanks to the non-slip perforations on the side, the product is very convenient to pour, and the design of the carton ensures that it is used to the last drop,
- The practical Pure-TwistFlip® cap allows the packaging to be opened and closed many times,
- They are made from renewable raw materials and are carbon neutral – their production has zero carbon footprint,
- They are FSC® certified – which guarantees that the wood used to produce Ovobox packaging is sourced from responsible sources.
